Doris Owoeye

Backend Developer

Dedicated and results-oriented software engineer with a passion for creating efficient, scalable, and innovative solutions. Seeking to leverage my technical expertise and problem-solving skills to drive software development excellence in a dynamic tech environment. Skilled in developing scalable backend solutions and RESTful APIs using the MERN stack.

EXPERIENCE

SafeSpace4Us, Remote — *Backend Developer Intern*

SEPTEMBER 2023 – FEBRUARY 2024

- Collaborated closely with the Product Manager, UI/UX designers, User research/innovation team, and Frontend Engineers to implement robust and efficient backend solutions.
- Designed and maintained databases, APIs, and server-side components, ensuring scalability and data security.
- Wrote clean, efficient, and maintainable code for the user interface, ensuring optimal performance and responsiveness across devices.

CribInn, Remote — *Backend Developer Lead (Volunteering)*   *Link*

OCTOBER 2023 - PRESENT

- Implemented robust authentication and authorization mechanisms, ensuring secure management of user operations for enhanced data integrity.
- Wrote technical documentation of APIs and procedures to simplify support processes

SKILLS

- Frontend — **HTML, CSS, JavaScript, ReactJs, Tailwind CSS.**
- Backend — **NodeJs, ExpressJs, TypeScript, NestJs.**
- Databases — **MongoDB(NoSQL), Postgresql(SQL).**
- Other Tools - **Git, GitHub, Agile/Scrum Methodology.**

LANGUAGE

English - fluent

EDUCATION

Stutern Graduate Academy, Remote— *Software Development*

SEPT. 2022 - AUG. 2023

- Build projects using MERN stack.
- Collaborated with cross-functional teams to design and implement RESTful APIs, enhancing system interoperability.
- Participated in code reviews and debugging sessions, ensuring software quality and performance.

PROJECTS

Paynex (Hackathon) — *Link*

A Cross-Border Money Transfer Application aims to provide users with a seamless platform to initiate international money transfers. Built by Express.js and integrating paystack API.

Loanwise App — *Link*

A web app that helps financial analysts and organizations to predict if a borrower will default or not after they receive a loan. Built using Node.js, Express.js, MongoDb.
